Atrocities in SSC regions in Somaliland(Somalia)

Somaliland separatists militants authority led by Muse Bihi in Hargeysa city vowed to commit Non Isaq clan cleansing from regions of Sool, Sanaag, and Ayn . These threatening statements toward the civilian people of Sool Sanaag and Ayn regions in Northern Western Somalia (Somaliland, former British protectorate), is disturbing and creates instability in the Horn of Africa.

Majority people of Northern Somalia (Somaliland) do not share the separatist agenda in Hargeysa.

The Northern Somalia (Somaliland) are inhabited by four major clans.

The Isaq clan, the Dhulbahante of Darod sub clan, the Warsangali of Darod sub-clan, the Gudabuursi clan, and Issa clan. 4 out of the 5 major clans do not support Somaliland separatist agenda.

They all suffered intimidation, violence and oppression under the well armed militants of Hargaysa.

We urge the USA, take its leadership and speak up against Somaliland Separatists intentions of ethnic cleansing and take swift action against the butcher Muse Bihi of Somaliland Authority .

Inaction by the international community will lead to instability, civil war and human catastrophe in Northern Somalia(Somali-land)
